

Hanging a mirror with J Clips

1
Draw two level lines and mark fixing positions for top and bottom edge.

2
Fix non-adjustable (smaller) brackets on bottom line and adjustable (larger) on top. For 6mm Polished or arised edge mirrors but the silver washer behind the J Clip. For 4mm mirrors and bevelled edge mirrors but the silver washer behind the white disc. Always ensure you use the correct wall plug for your wall. We supply wall plugs suitable for a brick wall. If in doubt, ask your local

3
Rest the mirror carefully onto the brackets along the bottom edge.

4
Clamp mirror securely at top by sliding down adjustable J Clip.

5
Relax and enjoy your new mirror.
